9 INTERESTING FACTS ABOUT OUR WORLD

The ocean covers more than 70 percent of the earth's surface.

About 94 percent of the earth's wildlife is found in the ocean.

More than 70 percent of the earth's oxygen is produced by the ocean.

1

Canada has 9% of the world's forests. It has 396.9 - million hectares of forests, or 9% of all of the forest area in the entire world, according to Natural Resources Canada.

2

The United States is the only country that has all of Earth's five climate zones: tropical, dry, temperate, continental, and polar.

3

Rainforests are essential to life on Earth. They provide air, water, medicine, food, and shelter to a multitude of living beings & the best natural defenses against climate change because of their capacity to absorb greenhouse gases from the atmosphere.

4

Midnight Sun: Every year in Greenland, the sun does not set from May 25th to July 25th, and it stays visible throughout the entire day and night.

5

The shortest commercial flight, operating between the neighbouring islands of Westray and Papa Westray in Scotland's Orkney islands, takes around one and a half minutes. With the fastest recorded flight taking less than 50 seconds.

6

In Ethiopia the current year is 2014. Ethiopia maintains its own calendar, which, due to a difference in the perceived date of the Annunciation is seven to eight years behind the Gregorian calendar

7

India's trains transport roughly 23 million passengers each day. Additionally, if laid out in a single line, the tracks from India's railway network could circle the world one and a half times.

8

It is the same time at both ends of China. Despite spanning five geographical time zones, China only has one set time, which is observed throughout the country.

9

The world's longest commercial flight took around 30 hours. The so-called 'Double Sunrise' service by Qantas, which ran from Australia to Sri Lanka from 1943-45, often lasted over 30 hours, with passengers seeing the sunrise twice.
